

GETTING STARTED WITH PINTRIX

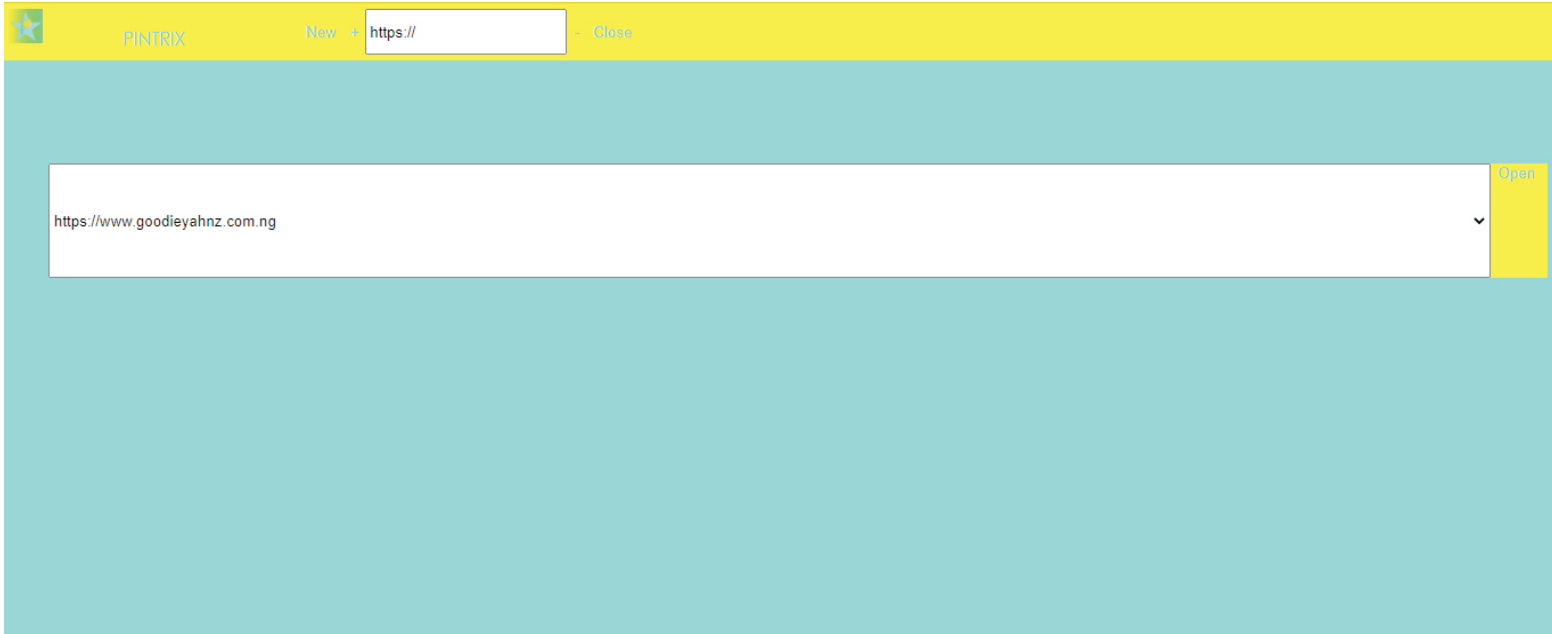

Pintrix, formerly called Bukmak is the fourth app of Goodie Yahnz. It was released on 25th May, 2025 celebrating Goodiey Cheaziey's 14th Birthday. It is used for storing URLs and addresses. It is a bookmark manager.

Visit the app: <https://www.goodieyahnz.com.ng/bukmak/>

Also available on itch: <https://www.goodie-yahnz.itch.io>

HOW TO USE PINTRIX

Here are the Features and their applications

Click this **New** button to open a new Pintrix file

and Click this **Close** button to close the current Pintrix file

You type the URL that you want to store here

A small rectangular input field with a yellow border, containing the text 'https://'. It is part of the Pintrix interface for entering a new URL.

and click this **+** button to add it. Once you click that button, it appears in the pane below

and you click this **Open** button to open it.

Click this  button and the URL shown in the pane will be deleted
